## Terminal n°2

Route de la Plaine  
Port 4999  
76700 Gonfreville l'Orcher  
France

**Alkion Terminal Le Havre (ATLH) is the largest chemicals storage site in France and located strategically in Le Havre on the Northern Coast of France. ATLH has two terminals and is providing a comprehensive set of specialized services to the industry. The facility is located in the heart of the Le Havre petrochemical cluster, less than two hours from the open sea and with easy access to the Seine valley. The terminal is certified ISO 9001:2015, ISO 14001:2015, ISPS and CDI-T registered.**

**Liquid storage: 421 000 m<sup>3</sup>**  
**170 tanks from 700 to 15 000 m<sup>3</sup>**

Capacity in m <sup>3</sup>	Terminal 1		Terminal 2	
	Mild steel	Stainless steel	Mild steel	Stainless steel
From 0 to 1 000	8	9	37	12
From 1 001 to 2 500	21	-	31	3
Above 2 500	26	-	23	-

### Products

Chemicals, petroleum products, mineral and vegetable oils, oil additives, high heat products

### Special handling

Heating, blanketing and cooling

### Product improvement

Filtering, blending and drying

### Accessibility

Rail, road, river, pipelines and sea  
5 jetties with a maximum draft of 12,2 m (39 ft)

### Waste water

Physicochemical and biological treatment unit of waste water from industry and shipping  
Authorized Marpol I & II reception facility

### Additional services

Storage and handling of bulk liquid containers and dry containers  
Heating, cleaning and decontamination through scrubber including hazardous goods  
Forwarding/Customs formalities  
Surveyors on site  
24/7 operation

### Expansion potential

Additional capacity of 120 000 m<sup>3</sup>
