Terminal n°2

Route de la Plaine
Port 4999
76700 Gonfreville l'Orcher
France

Alkion Terminal Le Havre (ATLH) is the largest chemicals storage site in France and located strategically in Le Havre on the Northern Coast of France. ATLH has two terminals and is providing a comprehensive set of specialized services to the industry. The facility is located in the heart of the Le Havre petrochemical cluster, less than two hours from the open sea and with easy access to the Seine valley. ATLH is ISO 9001:2008 and ISPS certified and CDI-T registered.

Liquid storage: 421 000 m³
170 tanks from 700 to 15 000 m³

Capacity in m ³	Terminal 1		Terminal 2	
	Mild steel	Stainless steel	Mild steel	Stainless steel
From 0 to 1 000	8	9	37	12
From 1 001 to 2 500	21	-	31	3
Above 2 500	26	-	23	-

Jetty Design	Jetty SOG 1	Jetty SOG 3	Jetty SOG 4	Jetty SOG 4bis	Jetty SOG 5
Deadweight (tons)	67 000	15 000	50 000	4 375	8 750
Length (m)	240	127	210	110	130
Draft (m)	12,2	9,2	11,8	4,7	8,3

Products

Chemicals, petroleum products, mineral and vegetable oils, oil additives, high heat products

Special handling

Heating, blanketing and cooling

Product improvement

Filtering, blending and drying

Accessibility

Rail, road, river, pipelines and sea
5 jetties with a maximum draft of 12,2 m (39 ft)

Waste water

Physicochemical and biological treatment unit of waste water from industry and shipping
Authorized Marpol I & II reception facility

Additional services

Storage and handling of bulk liquid containers and dry containers
Heating, cleaning and decontamination through scrubber including hazardous goods
Forwarding/Customs formalities
Surveyors on site
24/7 operation

Expansion potential

Additional capacity of 120 000 m³
